

compact

LAMINATING SYSTEM

Designed for users with light workloads and limited space, the COMPACT thermal laminator provides a reliable and high quality solution to your laminating needs.

Perfect for protecting and enhancing pictures, awards, presentations, teaching aids, menus, worksheets and much more, the Compact is perfect for school and office use. Flow form rollers allow for perfect side by side laminating of smaller items.

With durable construction and a user friendly design, the COMPACT provides quality lamination time after time, with little training required by the user. Coming fully assembled in the box, setting up a laminator has never been easier.

FEATURES

Power packed industrial grade motor with forward / reverse and variable speed functions.

Easy loading - the captive drop down idler bar makes loading film easier, and increases the heated area of the film

Preassembly means the machine can be ready for use within minutes of unpacking.

Easy to service - all parts can be quickly and easily replaced without major work.

Powerful heat shoes heat up in minutes, and maintain a steady temperature even during long runs.

Comprehensive backup on any technical issues you may encounter. We are always happy to help.

Durable construction - steel chassis and quality components for years of trouble free operation.

Optional mobile stand for stability and mobility.
